# COLONIAL

*home plans*

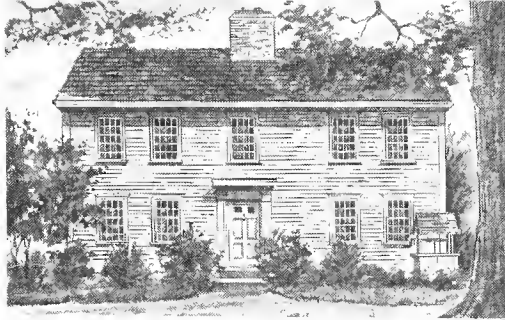

REVISED EDITION

**BLUEPRINT PLANS AVAILABLE**

**RANCH, SPLIT-LEVEL, 1  $\frac{1}{2}$  AND 2 STORY DESIGNS**

An illustration of a colonial home actually built in Lincoln, Massachusetts in 1696.

Entrances reflect the thoroughly comfortable atmosphere of colonial homes. Their warm, traditional look actually creates a feeling of stability and security.

## YOU'LL LOVE THE LIFE YOU LEAD IN A COLONIAL HOME

Colonial homes are unusually attractive and many more people would like to live in them than there are 18th century colonial homes available. This is why, about seventy years ago Americans started to build new houses that were definitely colonial in design. And today the strong colonial trend is continuing to grow.

The colonial homes presented in this book were selected on exterior design, functional floor plans for today's living standards, adequacy of living and working areas and use on an average building site. You'll find each design stresses comfort and gracious living within its well-established room arrangement and handsome colonial architectural exterior.

Choose the design most suited to your individual requirements. You'll love the life you lead—a life of the utmost comfort and gracious living!

The colonial design is easily adapted to any sized lot as it can retain its attractive, traditional look in one or more stories.

## INDEX

### HOME FINDERS CHART

The chart will help you PINPOINT that home design which will "perfect-fit" your family needs.

#### MULTI-LEVEL DESIGNS (LIVING AREAS TOTALED)

SALT BOX DESIGN

*Living Area*

*First Floor — 1,302 Sq. Ft.*

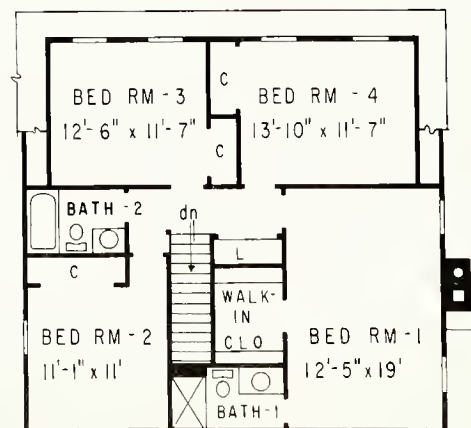

*Second Floor — 1,034 Sq. Ft.*

*Study or 1st Floor Bedroom*

Kitchen, pantry, dining area and family room form a well defined active area in this Salt Box design. Family room includes sliding glass doors to patio—an ideal spot for the sunworshippers in the family. As in any plan worth its salt, the formal living room is definitely separated from the active kitchen and family room areas. Closets galore, lavatory, first floor laundry and mud room combine to make this a complete family living home. The second floor reflects excellent planning, too. On the second floor is a master bedroom with bath and walk-in closet and three additional large bedrooms, plenty of closet space and a second bath.

## BLUEPRINTS FOR COST ESTIMATES AND CONSTRUCTION available

Our plan service offers every prospective homebuyer a complete "custom" plan service providing professionally prepared homes at economy prices. Our plan service homes are unique in their authenticity of design. No matter which plan or style you choose, you will take pride in the detailed exactness of the architectural styling and the total coordination of the interior and exterior.

### PLANS INCLUDE:

Exterior elevations, detailed floor and foundation plans, necessary details and wall sections.

### SPECIFICATION FORMS

A "fill-in" type form is included with each order.

### LUMBER LISTS AVAILABLE

A comprehensive listing of quantity and size of materials required for each home. They simplify and enable you to obtain faster estimates of cost.

### HOW MANY SETS WILL YOU NEED?

We suggest:

_____ Owner	_____ Loan source	1 set for study
_____ Builder	_____ Permit	4 sets for construction (min.)
_____ Subs	_____ Total sets	10 sets to expedite estimates and construction.
